**Special Presentation during the CIMC Annual Membership Meeting
Friday, October 31, 2014 - 1:30 pm**

Albert M. Pooley, Founder/President of Native American Fatherhood & Families Association will present information on their ongoing efforts throughout Indian Country.

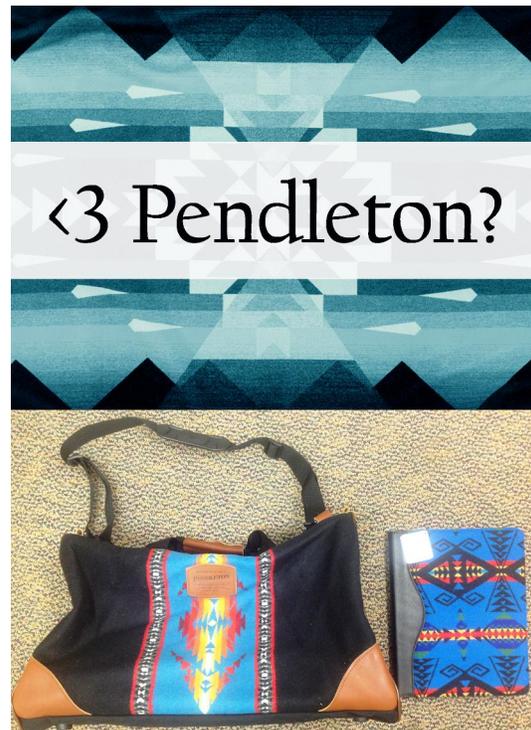

Throughout American history, social service agencies and government programs have focused primarily on serving the needs of women and children. Fathers have often been seen as the problem, not part of the solution. Recently community service organizations have started recognizing the importance of strengthening families by responsibly involving fathers in the lives of their children, families and communities. This session will present strategies for participants and agency staff to more effectively involve fathers in programs and help fathers partner with mothers to grow happy and safe families.
