- Extended Day
- Tests Preparation: State tests, ACT, SAT, GED/HiSET, and WorkKeys
- Essay Review
- Project-Based Learning

*Grade Results Digital Courseware offers several modalities that support individualized, personalized, and differentiated learning.*

During the past five years, Grade Results' research shows that students have increased academic achievement on pre and posttests on Grade Results' embedded test and measures, national and state standardized tests, and measures that are selected by the client. Part of this success can be attributed to the flexible and adaptable nature of service delivery.

*There are three content delivery modalities that Grade Results offers:*

### Modality A

Self-paced access to online courses and lessons; suitable for students that are self-directed

### Modality B

Online classroom with limited instruction; which gives a group of students access to an instructor and online lessons and projects.

### Modality C

Online classroom with instruction in a one-on-one tutorial session.

All of these modalities are interchangeable, and have been combined in many school settings. For example, it's possible for a student to begin with a one-on-one tutorial and migrate to working with online course materials in a self-directed manner.

Individual one-to-one live instruction

Small group one-to-one live instruction

Whole group live instruction

## Individual On Demand One-to-One Live Instruction

### Grade Results Features

- **State and Common Core Standards Aligned Curriculum**

- **Customizable course weightage %**
- **Essay review with district defined rubric**
- **On demand reports for data-driven decisions**

Our clients have **INCREASED Retention and Graduation Rates by more than 90%.**

"I teach credit recovery students. Academic achievement is often especially difficult for these students. Other programs that I have used in the past were often very frustrating for my students for many different reasons. The Grade Results program that I currently use is wonderful! The students understand how to operate the program which is often half the battle. **They and I love the fact that there is a live instructor available for immediate help with any subject.** My students are recovering credits in subjects that range from Trigonometry to Personal Finance. I taught English in the classroom for 17 years. I can help any student with English, but subjects such as Trig, Chemistry, or World History can present challenges. **The live instructor feature of Grade Results is one of my favorite aspects of it. The students are able to chat with an instructor and receive immediate help and feedback.**

**This program has helped my students become successful and be able to finish their classes and earn their credits. It would be an asset to any instructional curriculum."**
